### How do I uninstall a printer driver on Windows 2000 or XP?

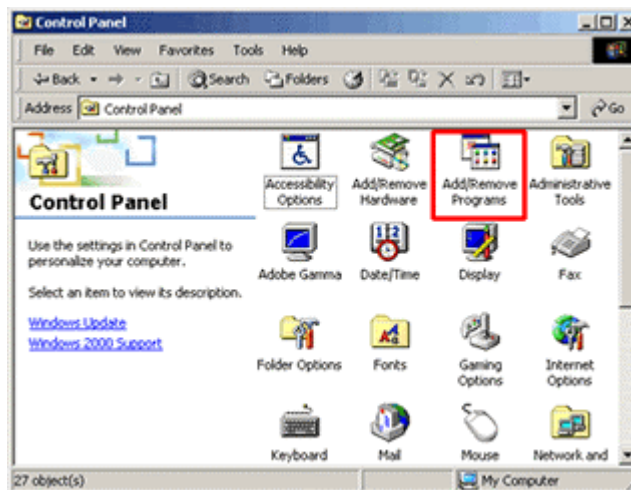

To uninstall a printer driver you need to remove EPSON Printer Software from the Add / Remove programs list in control panel.

#### Instructions.

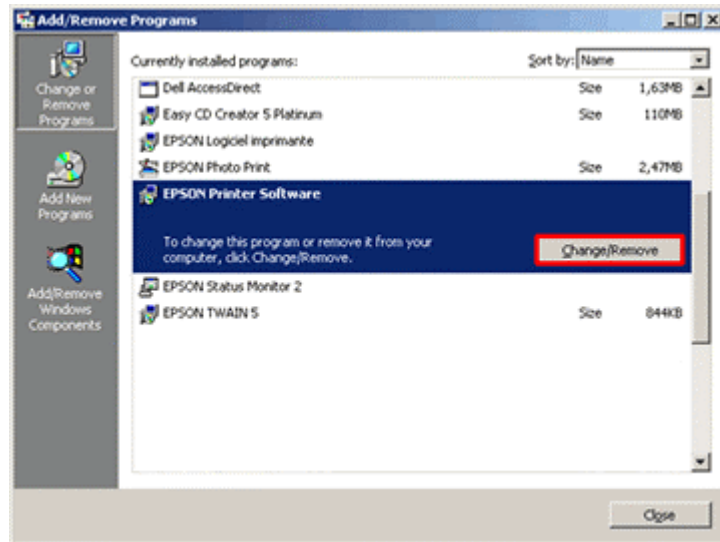

Proceed by double clicking on the **My Computer** icon on your desktop. Now double-click on **Control Panel**.

Double click on **Add/Remove Programs**.

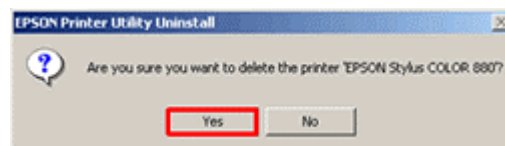

This will now display a list of all the programs installed on your PC. Click on EPSON Printer Software and click **Change/Remove**.

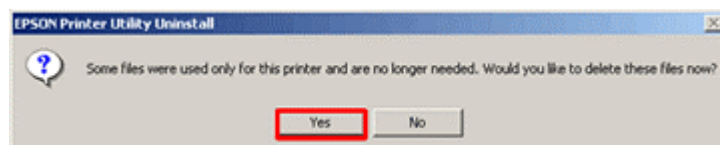

Click on the Printer you would like to uninstall and click **OK**.

Click **Yes**.

Click **Yes**.

Un-installation is now finished. Click **OK**.

Please restart your computer to complete. For instructions on how to install the printer driver click here:
